Do i need a cloud solution?

Have you ever lost important data with PC Failure?
Reconfiguring an access control solution can be costly
and extremely time consuming.

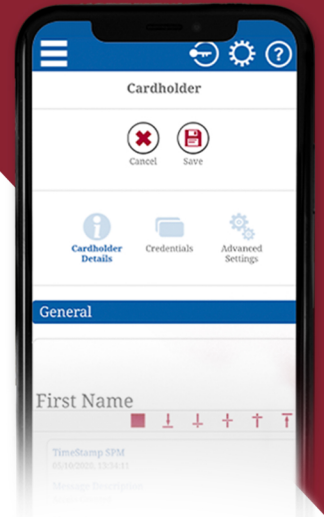

How about needing to adjust cardholders or access rights
whilst you are away from your facility?

Or what if you needed to check live events, or a lock door in a severe
emergency, but cannot access your Doors.Net Installation?

Remove those fears

With Borealis, we host your solution on ultra secure amazon
web servers, No more expensive recovery services or computer repairs.

Access your security solution from any device, Borealis is browser based allowing
access from any internet enabled smart device or computer.

Our Promise

The Keri Commitment

We succeed when you do. That's why we do everything we can to give you the tools and support you need.

As one of the largest independent Access Control OEM's in the world, our focus is always on you, the customer, unlike many corporate providers whose primary motive is to maximize their stock price. We will proudly put our 30 year track record of outstanding products and service against any other Access Control provider.

“Our Solution Your Success”

Embark on a new journey and send your security solution to the cloud.

Borealis is scheduled for a rapid introduction of newly supported features.

Want to know more?

Our friendly sales team are always willing to help, no matter what the question.
